Description of Table

The attached table provides an estimate of the hours required for various tasks associated with the current Data Access and Dissemination System contract. The hours reflected in the table are estimated contract hours for major data and application releases. The level-of-effort tasks identified at the bottom of the table are estimated on an annual basis.

The estimates in the attached table are derived from historical work and should not be interpreted as the Government's estimates of future work required under the DADS II RFP. The estimates are presented only to provide potential bidders with some indication of the historical level of effort for representative tasks. For example, the tasks identified do not include the major tabulation worked required for the 2010 Decennial Census, nor do they include partial work on application releases that were started in one year, but completed in the following year.

Please note that the tasks listed in the following table do not represent a complete list of all tasks completed during the course of a year. They are presented as examples of the effort needed to complete representative tasks.

Acronym List

2004 ACS	2004 American Community Survey, Wave X Release
2005 ACS	2005 American Community Survey, Wave X Release
2005 PRCS (Eng)	2005 Puerto Rico Community Survey (English Version)
2003 NES	2003 Non-Employer Statistics
2004 NES	2004 Non-Employer Statistics
2004 ASM	2004 Annual Survey of Manufacturers
2005 ASM	2005 Annual Survey of Manufacturers
2002 EC BES	2002 Business Expenditure Survey
2002 EC SBO	2002 Survey of Business Owners
2004 CBP	2004 County Business Patterns
2002 EC Cycles	2002 Economic Census Data Release Cycle
2005 PEP	2005 Population Estimates
2006 PEP	2006 Population Estimates
SAIPE Maps	Small Area Income and Population Estimate Special Maps
2010 SLD	2010 Census State Legislative Districts File
